REACH declaration related to PP-RCT metal valves and accessories

The objective of the European Chemical Regulation REACH (Registration, Evaluation, Authorization and Restriction of Chemicals, EC Mo. 1907/2006) is to ensure a high level of protection of human health and the environment. As a supplier of the articles, we shall provide sufficient information whether “substances of very high concern” (SVHC) are present in an article above 0.1% (w/w) (Art. 33(1) REACH Regulation No. 1907/2006). These substances are, for example, carcinogenic, mutagenic, toxic for reproduction, or very critical for the environment. The list of these substances is updated regularly and published by the European Chemicals agency (ECHA).

<https://echa.europa.eu/candidate-list-table>

The Bänninger PP-RCT metal valves and accessories are equipped with metal parts made from different metal alloys, in which the substance lead (Pb, EC no.: 231-100-4; CAS no.: 7439-92-1) is used as an alloying element in a concentration > 0.1% (w/w).

The materials in water contact are listed in the positive list for metal materials in contact with drinking water from UBA (German environmental agency) and 4ms acceptance scheme for metallic parts in contact with drinking water.

Concerned products please see following list.

Reiskirchen, 04.07.2019
